

Customer Support Handbook

This handbook summarizes company policies for returns, cancellations, shipping, the SuperCoins rewards program, warranty support, and payments, based on common e-commerce marketplace practices.

Returns Policy

Return eligibility depends on the product category, and the exact window is always shown on the product page at the time of purchase, which takes priority over any general policy.

Electronics, mobiles, and large appliances are usually eligible for replacement only, typically within 7 to 10 days of delivery, since functional defects are resolved through swapping the unit rather than issuing a refund. Fashion items such as clothing, footwear, and accessories generally allow returns for size, fit, or defect issues within a similar window, provided tags and original packaging remain intact and the item is unused. Categories such as groceries, personal care, and other hygiene-sensitive products are usually non-returnable due to health and safety reasons, unless the item arrives damaged, defective, or incorrect.

Once a returned item reaches the fulfillment center, it goes through a quality check. A full refund is issued for genuine cases within the policy window, a partial refund may apply if the product shows visible use or damage, and a replacement is offered instead of a refund when an identical item is available in stock.

Cancellation Policy

Orders can typically be cancelled before they are shipped, either from the Orders section of the account or by contacting customer support. Once an order has been picked up by the delivery partner, self-service cancellation is usually no longer available, and the request must go through customer support instead. A cancellation fee may apply depending on the product category and the customer's order history, and this fee is generally deducted directly from the refund amount rather than charged separately. High-value items such as large appliances or furniture may carry a higher cancellation charge than smaller, low-value items.

If an order is cancelled by the company itself, for example due to a stock issue or a failed quality check, the customer receives a full refund and no cancellation fee is applied.

Shipping Policy

Standard delivery typically takes 5 to 7 business days, while express delivery, where available, takes 2 to 3 business days for an additional charge. Orders above a minimum order value are usually eligible for free standard shipping, while orders below that threshold may incur a small delivery fee. Shipping cost, where applicable, is generally calculated based on the product's actual weight or its volumetric weight, whichever is higher, along with the delivery zone.

Cash on delivery is available for most orders, though a small handling charge may apply for this payment option. Once an order is dispatched, a tracking link is shared via email and SMS, and delivery status along with any delays can be checked directly from the Orders section.

SuperCoins Rewards Program

SuperCoins are loyalty reward points earned automatically on eligible purchases made through the platform. The earning rate depends on membership tier: premium members typically earn coins at a higher rate per order compared to regular members. Coins can also be earned through promotional activities such as games, quizzes, referrals, and special launch events.

SuperCoins can be redeemed for discount coupons, gift vouchers, subscription services, and as a partial payment method combined with another payment option at checkout. They are also usable across select partner platforms for travel bookings and other services.

SuperCoins cannot be converted to cash or transferred to a bank account, and they generally expire within a set period from the date they are credited, so customers are encouraged to redeem them periodically rather than let them lapse.

Warranty Policy

Warranty terms vary by product and are set by the respective brand rather than the marketplace itself. The applicable warranty period, along with whether it covers replacement, repair, or on-site service, is listed on the product page. For most electronics and appliances, customers experiencing a defect within the warranty period should contact the brand's authorized service center directly, as the final decision on repair or replacement typically rests with the brand.

If a product is found to be defective on arrival, this is usually handled separately from the standard warranty process and may qualify for an immediate replacement, provided it is reported within the specified return window rather than through the manufacturer's warranty channel.

Payments Policy

Multiple payment methods are typically supported, including credit and debit cards, net banking, UPI, wallets, and cash on delivery. If a payment fails during checkout, no amount should be deducted; if money is debited despite a failed order, it is usually auto-refunded to the original payment method within about 5 to 7 business days. For prepaid orders that are cancelled or returned, refunds are generally initiated quickly, though the time for the amount to reflect in a bank account or card statement depends on the respective bank's processing time.

Customers are encouraged to verify card details and billing address carefully before confirming payment, and to reach out to customer support if a deducted amount is not refunded within the expected timeframe.

Delivery Address Change

The delivery address for an order can usually be changed only before the order has been shipped, from the Orders section of the account. Once the order has been handed over to the delivery partner, the address can no longer be edited directly, and the customer would need to cancel the order and place a new one with the correct address, or contact customer support to check if redirection is possible with the courier partner.

Invoice and GST Bill Request

A copy of the invoice is generally available for download from the Orders section once the item has been delivered. For business customers who need a GST-compliant bill with their company details, the GST number is usually required to be added at the time of placing the order, since invoices typically cannot be reissued with GST details after the order is already placed. If an invoice is missing or incorrect, customers can raise the issue with customer support for correction or reissue.

Membership / Plus Program

Premium membership programs typically offer benefits such as free faster delivery, early access to sales, higher SuperCoins earning rates, and dedicated customer support. Membership can usually be activated either through a paid subscription or automatically after earning a qualifying number of SuperCoins within a given period. Membership benefits are tied to the account and are not transferable to another user.

Frequently Asked Questions

Q: Can I cancel my order after it has been shipped?

A: No, once an order is shipped, self-service cancellation is no longer available. You would need to refuse the delivery or initiate a return after it arrives.

Q: How long does a refund take after a return is picked up?

A: Refunds are usually processed within 5 to 7 business days after the returned item passes quality inspection at the fulfillment center.

Q: Do SuperCoins expire?

A: Yes, SuperCoins typically expire within a set period from the date they are credited, so it is best to redeem them periodically.

Q: Is cash on delivery available for all orders?

A: Cash on delivery is available for most orders, though a small handling charge may apply, and some high-value or restricted items may not offer this option.

Q: Who handles the warranty claim, the marketplace or the brand?

A: Warranty claims are generally handled directly by the product's brand and its authorized service centers, not by the marketplace itself.

Q: Can I get a GST invoice after placing my order?

A: Usually not. GST details need to be added at the time of placing the order for the invoice to reflect them correctly.
